

MROQC NEWS

Michigan Radiation Oncology Quality Consortium

In this issue:

- MROQC's 10th Anniversary Memory Book
- 2021 FTE Model
- 2021 Collaborative-wide Meeting Schedule
- Upcoming Working Group Call Schedule
- Database Upgrades

Help MROQC Celebrate Our 10th Anniversary!

In honor of MROQC's 10th anniversary, we will be creating an electronic book to commemorate and honor the important work of our members since 2011. Help us celebrate by sharing what MROQC means to you or your favorite MROQC moment over the years! Those who submit will be featured in the book.

Thank you for your participation!

2021 FTE Model

The 2021 FTE model has been approved by BCBSM. The 2021 MROQC FTE model is based off of a site case volume of 200 patients (which was the same case volume used for 2020). Check out the [MROQC FAQ](#) section of the website for additional information on the FTE model and how to estimate your site's payment.

2021 Collaborative-wide Meeting Schedule

February 12, 2021 – “Virtual” Zoom Webinar, 9:00am—12:00pm

- Registration information to join the Zoom Webinar will be sent via email 2-weeks before the event.
- Breakout Sessions will be held separately via Zoom Meetings.

June 11, 2021 – Hagerty Conference Center, Traverse City

October 8, 2021 – Schoolcraft-VistaTech Center, Livonia

For more information, including past events and CE information, please visit the [Consortium Meeting & Events](#) page on our website.

Upcoming MROQC Project Working Group Call Schedule:

- Lung Working Group Call, January 15th at 11:00am
- Bone Mets Working Group Call, January 19th at *9:00am
* Please note the time change for the January call.
- Prostate Working Group Call, January 26th at 12:00pm
- Breast Working Group Call, March 12th at 2:00pm

Working Group calls scheduled in February will be canceled due to the February 12th Collaborative-wide Meeting.

Please visit the [Quality Working Groups](#) tab on our MROQC website for more information about our projects and working group call schedules.

V3 Bone Mets Upgrade

The v3 upgrade to the Bone Mets database went live last week. A special thanks to all of the v3 testers!

V5 Breast & Lung Upgrade

Preparations for the Breast & Lung v5 upgrade are underway at the coordinating center. Stay tuned for information regarding testing and training.
