

How to Use The: Mets Performance Measures (P4P) Report

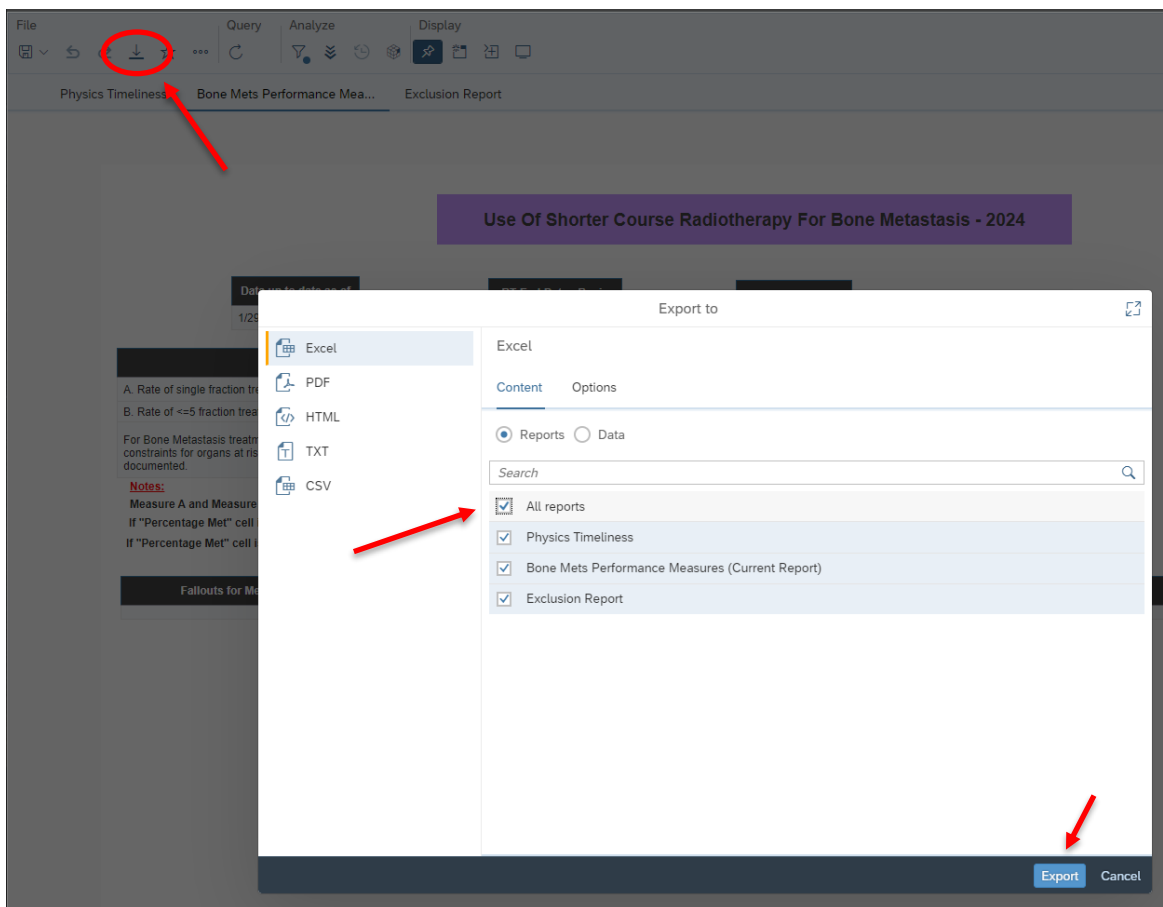

1. Select the Facility Reports tab

2. Right-click on the 2024 Pay for Performance (P4P) Report and open the report in a new tab or window.

3. Export the report into Excel—select export , choose Excel as the file type and select All reports to export

4. Each measure can be reviewed by clicking on the specific tab at the top of the report. (In the figure below Bone Mets Performance Measure is displayed).

The date ranges can be customized by activating the filter bar and changing: a) Performance Year- to All values and b) RT-dates in the calendar view (RT End Date-Begin and RT end Date-End).

Data up to date as of: 1/30/24

RT End Date - Begin: 1/3/24

Measure	Threshold	Fr
A. Rate of single fraction treatment of uncomplicated bone metastasis	>=45%	
B. Rate of <=5 fraction treatment for all patients	>=75%	
For Bone Metastasis treatment using SBRT, standardized dose constraints for organs at risk (OARs) are used and any violations are documented.	>= 80%	

Notes:
 Measure A and Measure B listed above indicate site rates
 If "Percentage Met" cell is highlighted in red - it indicates the measure is not met
 If "Percentage Met" cell is highlighted in green - it indicates the measure is met
