3. Select “do not show this message again” when the data protection dialogue box appears.

4. Export the report into Excel—select the export option and download the report as an excel file.

5. The report will include patients that are missing any of the clinical baseline forms based on the criteria outlined below.

MROQC ID	Patient Refuse Forms	Date First Data Entry	RT Start	Date Audit Start	Missing M1	Missing M3	Missing M4	Missing M6
	No	1/5/24	12/26/23	12/26/23				1

- 1 indicates a missing form

Form Name & Number	Report Criteria
Baseline Clinical Data / M1	Trigger 1-week post RT start date. If RT start date is not entered, trigger report 1-week post database creation.
Systemic Therapy Data / M3	Trigger 1-week post RT start date on M1
Baseline Toxicity Evaluation/M4	Trigger 2-weeks post RT start date on M1.
Patient Pre-Treatment / M6	Trigger 2-weeks post RT start date on M1.

Report Information/ Tips

- ✓ The report is refreshed every night
- ✓ The report includes patients who are missing at least one baseline form
- ✓ Follow-up forms will not be included on the missing forms report until the conclusion of the follow-up pilot.
- ✓ To clear errors, please email support@mrogc-mets.org. The email should include the patient's MROQC ID, the error to clear and the reason why.
- ✓ **Run report at least once per week**
