**Number of Eligible Patients**

Notes:

- \*MROQC receives a data file from MUSIC every Monday and updates the prostate database during the nightly data run
- \*The matching process takes a minimum of 24 hours and as long as 3 months after a patient ends treatment
- \*You should review a patient's match status 24 hours after enrollment and continue monitoring the patient weekly until the match is completed
- \*The MUSIC File Record Date is the date the weekly MUSIC file is sent to MROQC. The MUSIC file record date was added on 8/28/21

The Date listed in the "Date of Match" field is determined by one of the following four scenarios:

1. When a patient is enrolled in the prostate database their record is compared to the old records in the MUSIC file:

MUSIC File Record Date	Date of Enrollment in Prostate Database	Date of Match
08/28/2021	07/08/2021	07/08/2021

5. **How to use the "Matched" filter:** you can change the information showing in the report by displaying only the matched or the non-matched eligible patients by filtering either by the enrollment RT-Start date or enrollment RT-End date or both.
- **Select "Yes"-to display matched patients and "No" - the non-matched patients.**
  - **Enrollment Start Date- calendar view (select date)**
  - **Enrollment End Date-calendar view (select date)**
  - **If you want to reset the filter -click the "Reset" option from the sidebar, and the filter will be set to "default value"**
